## **Response Summary:**

## 1. Student Information \*

First Name	Ema
Last Name	Westerfeld
Major	Animation
Course (e.g. CGT 270-001)	CGT 270
<b>Term</b> (e.g. F2019)	S2022

## 2. Email Address \*

(University Email Address is required.) ewesterf@purdue.edu

- 3. Visualization Assignment \*
  - Homework Assignment

## **Understand**

4. Parse Data: List each field and its data type. Refer to Fry (page 8-9, 2007) for examples of description of different data types (string, float, character, integer), you can also create user defined types (some combination that uniquely identifies data like the Index type in the Fry 2007 page 9 example) \*

The countries are string data and the populations are float.

5. Assumptions: List any assumptions you are making about the data and/or the visualization challenge (aka the project) \*

I assume that the demographics are accurately represented in the data.
